We strongly support the strengthening of the policy to fill gaps in the Green Infrastructure network.

In **Section A** of the policy, **point 1**: the importance of connectivity for biodiversity protection and gain, as well as for leisure and play should be explicitly recognised.

We strongly support **Section C** providing protection for existing green spaces and corridors which make a significant contribution to GI. Specific reference should be made here to the important work undertaken by communities in Neighbourhood Plans to identify and designate Local Green Space.
